

DETAILS MAKE THE DIFFERENCE

- 1 Built for lasting performance using virgin vinyl (PVC) resin; solid vinyl color won't chip, peel, crack or warp.
- 2 Multi-chambered sash and main frame provide insulating air spaces for increased thermal efficiency.
- 3 Insulated glass unit with sealed air space between the panes of glass helps reduce transfer of heat and cold.
- 4 PPG Intercept® Warm-Edge Spacer System saves energy by reducing the conduction of heat at the edge of glass for superior thermal performance and longevity.
- 5 Interlock at steel-reinforced sash meeting rails offers increased insulation, comfort and security.
- 6 Bulb seal at meeting rail enhances energy efficiency.
- 7 Drop-in glazing provides added protection from outside elements.
- 8 Easy-to-operate fully extruded lift rails.
- 9 Sloped sill prevents accumulation of water and debris.
- 10 Hidden screen track creates a clean-line appearance.
- 11 Protective bulb seal at sill helps block out dust, dirt and air infiltration.

ADDITIONAL FEATURES

- Fusion-welded sash and main frame for strength and rigidity.
- Dual ventilator locks for limited and secure opening of the window for ventilation.
- Full balance covers for reduced air infiltration while adding a finished look to the window frame.
- DuraLift™ block and tackle balance system for smooth operation of sashes.
- Tilt-in top and bottom sashes for safe and easy cleaning from inside the home.
- Double-barrier fin seal weatherstripping at the sash sides helps block air, water and dirt infiltration.
- Beveled exterior profile creates a handsome appearance.
- Half screens are standard; optional full screens available.
